

FOR **SOIL CONDITIONING**

**Net Weight: 1 gal (3.9 kg)**

## PRODUCT DESCRIPTION

Unpac® is a microbially derived biosurfactant used to treat soil compaction. For use across all soil types. For commercial agricultural use only.

## DIRECTIONS

Fill mixing tank to a minimum of 50% volume of water, begin agitation, add Unpac® liquid slowly, and fill with the remainder of required volume. Agitate throughout application. Applications may be made at planting and in-season through ground, chemigation, and fertigation methods. Conduct a jar test before use.

Unpac® liquid should be applied within 8 hours of mixing.

Treat with 4 fl oz per acre first use. Then 2 fl oz per acre every other month.
