

# Terradigm<sup>®</sup> enhances turf quality & color

Boost nutrient uptake with our *Simply Vital* biologicals.

Turf treated with Locus AG's Terradigm<sup>®</sup> product line will experience enhanced quality and color. On golf courses, turf will heal faster from divot and play recovery, verticutting and aerification. Treated sod and ornamentals will mature faster, have better vigor and enhanced root growth.

Terradigm<sup>®</sup> can be used for initial install, seeding on bare soil, sprigging and grow back after harvest.

Available in Liquid Formulation

## Featured Proprietary Strains

*Trichoderma harzianum*, *Bacillus amyloliquefaciens* (Terradigm)  
*Wickerhamomyces anomalus* (Terradigm XP)

## How Terradigm<sup>®</sup> Works

### Boosts Root Growth & Tensile Strength

Increases plant vigor by elongating roots and increasing their water-holding capacity.

### Enhances Nutrient Availability & Uptake

Tissue tests prove increased availability of nitrogen, phosphorus and potassium.

### Consistent Clipping Weight

Boosts root mass and overall appearance without requiring increased mowing.

A simply vital choice. Get started now.
