FAQs

Q: When does the product expire and how long can I keep it on the shelf?

A: See packaging for expiration date.

Q: What is the best application method?

A: Unpac is a liquid product that goes directly into the tank to be applied via irrigation.

Q: Is it safe for me to put Unpac into a tank mix with other products?

A: Conduct a jar test prior to adding Unpac to the tank mixture.

Q: How do I ensure even distribution across my field?

A: Fill your mix tank halfway, add in the appropriate amount of Unpac, then fill the remainder of the tank. Mix well. Keep agitation on throughout the application, if possible.

Q: Will Unpac work in all soil types?

A: Yes, Unpac can be applied to any soil type and across all environmental conditions.

Q: Does Unpac contain living microorganisms?

A: No, the active ingredient is a microbially derived biosurfactant.
